INTER-KOREAN AFFAIRS

DAILY BLAMES U.S. FOR DANGER OF NEW WAR

SK181107 Pyongyang KCNA in English 1053 GMT 18 Jul 83

[Text] Pyongyang, 18 Jul (KCNA)--World peace and security are gravely menaced and the danger of a new war is growing due to the reckless moves of the U.S. imperialists to realize their wild ambition for world supremacy by "strength," declares NODONG SINMUN today.

The paper says:

During the last few months South Korea has been the scene of such powder-reeking war exercises staged by the U.S. imperialist aggressors almost every day as the "Team Spirit 83," fleet mobile exercise and "myollong (destroy communism 83)." In this period, they staged entirely offensive military operations such as "parachuting operation," "landing operation," "ground operation" and "bombing exercise," by choosing areas and goals similar to the northern half of the republic. This indicates that these military exercises were three-dimensional aggressive exercises for provoking a new war in Korea.

On the other hand, the U.S. imperialists stage feverish joint military exercises with the "self-defence forces" of Japan in order to inveigle the Japanese aggression forces into their war of aggression in Korea.

They held a U.S.-Japan joint anti-submarine exercise and a U.S.-Japan joint aerial exercise in Nagasaki and other areas. Recently, they held a U.S.-Japan joint military exercise codenamed "Variant Blitz 83" in Okinawa.

What is noteworthy in the war exercises staged by the U.S. imperialists in and around South Korea is that they are held under stimulated conditions of a nuclear war in Korea.

The "Team Spirit 83" war exercise perpetrated by the U.S. imperialists all over South Korea some time ago was, in fact, a "nuclear test war."

The U.S. imperialists are leading the situation to the brink of war in Central America. A typical example of this is their recent massive joint military exercises with the Honduran and Salvadoran reactionaries.

They are madly running about to provoke a new war in the Indian Ocean and the Arabs Gulf and massing aggression armed forces in the Middle East, watching for a chance of a direct armed intervention.

They are hastening war preparations in the European area, too, while making haste with the deployment of nuclear weapons.

FOREIGN COUNTRIES MARK ANTI-U.S. STRUGGLE MONTH

SK181615 Pyongyang KCNA in English 1533 GMT 18 Jul 83

[Text] Pyongyang, 18 Jul (KCNA)--Colourful functions were recently held in France, Norway, Syria, Mozambique and Vietnam on the occasion of the 25 June-27 July month of anti-U.S. joint struggle.

DPRK book, photo and handicraft exhibitions were held in Sainte Menehould and Quimperle of France and Oslo of Norway.

Portraits of the great leader Comrade Kim Il-song and the dear leader Comrade Kim Chong-il were placed in the exhibition halls.

On display were immortal classic works of the great leader Comrade Kim Il-song, historic works of the dear leader Comrade Kim Chong-il and Korean books.

Also on display were photographs showing the brilliant victory won by the Korean people in the fatherland liberation war under the wise guidance of the great leader and pictures showing the development of our country and pieces of handicraft.

The exhibitions were visited by mayors and deputy mayors and leading personnel of political parties and public organisations and many people of various strata and youth and children.

The ex-mayor of Quimperle Ploutte in his opening speech at the exhibition said the French people express concern about the United States' Division of Korea and extreme aggravation of situation there and voice firm solidarity with the Korean people's struggle for national reunification.

Member of the Sainte Menehould city council R. Cabe said, after seeing the exhibition:

Korea should be reunified independently on a democratic principle and in a peaceful way in accordance with the new proposal put forward by President Kim Il-song.

Unanimously stressing that the great leader President Kim Il-song led the fatherland liberation war to a brilliant victory to start the U.S. imperialists,

who had been boasting of being "the strongest" in the world, on the downhill, the visitors expressed full support and solidarity for the policy and efforts of the Workers' Party of Korea and the Government of the DPRK for National Reunification.

A film show was arranged at the Damascus School for Bereaved Children of Martyrs, Syria.

Photo exhibitions were held at the Music School of the Defense Ministry and the Seron Cinema House in Mozambique and a friendship meeting was organized by the Vietnam-Korea Friendship Association and the Vietnamese Committee for Supporting Korea on the Occasion of the Month of Anti-U.S. Joint Struggle.

COMMERCE TU SUPPORTS MONTH OF ANTI-U.S. STRUGGLE

SK190840 Pyongyang KCNA in English 0800 GMT 19 Jul 83

[Text] Pyongyang, 19 Jul (KCNA)--The secretariat of the Trade Unions International of Workers in Commerce recently made public an appeal on the occasion of the month of anti-U.S. joint struggle, which says:

The Korean people and commercial workers are vigorously fighting to force the U.S. troops out of South Korea and reunify the country independently.

They are persistently struggling to shatter the projected U.S.-Japan-South Korea tripartite military alliance and avert the danger of war in the Korean Peninsula, Asia and the world.

In the name of its 20 million members, the secretariat of the Trade Unions International of Workers in Commerce expresses militant solidarity with the valiant Korean people and commercial workers in their just struggle.

We call upon the commercial workers and their trade unions all over the world to set the month of solidarity with the Korean people as a period of action and struggle for Korean reunification, sovereignty and peace and express in every possible way firm solidarity with the Korean people in their just cause of the independent reunification of the country.

POLISH SAILORS DENOUNCE U.S. AT DPRK PORT

SK210455 Pyongyang KCNA in English 0346 GMT 21 Jul 83

[Text] Pyongyang, 21 Jul (KCNA)--The crewmen of the Polish ship "Chemic" held a solidarity meeting at [name indistinct] port on 18 July in support of the Korean people's struggle to drive the U.S. imperialist aggression forces out of South Korea and achieve the independent and peaceful reunification of the country on the occasion of the month of anti-U.S. joint struggle.

Speeches were made at the meeting.

The meeting adopted a letter to the great leader Comrade Kim Il-song and a letter to the dear leader Comrade Kim Chong-il.

It issued a statement, which says:

Korea should be reunified in accordance with the proposal for founding the Democratic Federal Republic of Koryo put forward by the great leader Comrade President Kim Il-song at the Sixth Congress of the Workers' Party of Korea.

This proposal is a most realistic and reasonable one for Korea's reunification at present.

We strongly demand that the U.S. imperialists immediately give up their moves to provoke a new war of aggression in Korea and withdraw from South Korea without delay their aggression forces and lethal weapons.

It is essential to decisively check and frustrate the scheme to frame up a U.S.-Japan-South Korea tripartite military alliance which poses a threat to peace in Korea, Asia and the world, overthrow the Chon Tu-hwan military fascist clique and democratize South Korean society.

At the end of the meeting the attendants paraded in the compound of the port, carrying placards reading "Korea Is One!" "We Oppose the Projected U.S.-Japan-South Korea Triangular Military Alliance!" "The Chon Tu-hwan Military Fascist Clique of South Korea Must Step Down from 'Power' at Once!" "The U.S. Imperialists Must Stop Aggressive War Moves and Get Out of South Korea at Once!" and so on.

JAPANESE WOMEN'S GROUP CALLS FOR U.S. WITHDRAWAL

SK160539 Pyongyang KCNA in English 0354 GMT 16 Jul 83

[Text] Tokyo, 14 Jul (KNS-CNA)—A meeting of Japanese Women Thinking of Peace in Asia was held in Tokyo on 2 July on the occasion of the 30th anniversary of the victory of the Korean people in the fatherland liberation war.

The meeting co-sponsored by the Liaison Society of the Japanese Women for Solidarity With Korean Women and the Women's Solidarity Organizations in Kanto District for supporting the independent and peaceful reunification of Korea was attended by Sumiko Tanaka, vice-chairman of the Japan Socialist Party and delegate of the Liaison Society of the Japanese Women for Solidarity With the Korean Women, Sumiko Shimizu, its chief secretary, Masako Yamashita, chairman of the Japanese Women's Society, and other representatives of the sponsor organizations and broad segments of Japanese Women in Kanto District, 300 in all.

Sumiko Tanaka spoke at the meeting on behalf of the sponsor organizations.

She called for a more powerful movement to thwart and frustrate the scheme to form a three-way military alliance of the United States, Japan and South Korea and force the U.S. troops to withdraw from South Korea for the reunification of Korea.

Narihiko Ito, professor of Chuo University of Japan, gave a lecture on the subject "Asian Peace and Korean Peninsula."

Representatives of solidarity organizations made speeches.

An appeal was adopted at the meeting.

The appeal notes that the U.S. imperialists are reinforcing South Korea as their "foremost base" to realize their nuclear strategy and staging massive war exercises to create a war atmosphere on the Korean Peninsula.

It says that greater efforts should be made to build up public opinion demanding the withdrawal of the U.S. troops and the nuclear weapons from South Korea and the replacement of the Korean armistice agreement with a peace

agreement for turning Asia into a nuclear-free zone and realizing the independent and peaceful reunification of Korea.

It also calls for more brisk activities to bring a radical switch-over in the Japanese Government's Korean policy, actively support and encourage the patriotic struggle of the South Korean people for the democratization of society and have all the political prisoners released in South Korea.

SYMPOSIUM OF ALL KOREAN SCHOLARS OVERSEAS HELD IN JAPAN

Scholars Adopt Declaration

SK180457 Pyongyang KCNA in English 0426 GMT 18 Jul 83

[Text] Pyongyang, 18 Jul (KCNA)--A "Kyoto Declaration for Independence, Democracy and Unification" was adopted at the Sixth Symposium of All Korean Scholars Overseas for National Unification which was held recently in Kyoto, Japan.

It stresses that the movement for democracy and national unification should be conducted under the banner of national independence against foreign forces.

Noting that the tensions on the Korean Peninsula must be based, the peninsula be turned into a nuclear-free, peace zone and the danger of nuclear war be removed from the peninsula, it says:

The foreign troops present in the South must be withdrawn along with all nuclear weapons deployed there. No part of the territory of the country must be left as a military base of foreign troops.

The joint military exercises with foreign troops, which have become an annual occurrence, must be brought to an end and a peaceful climate be created through disarmament.

A lasting and durable peace will come to the Korean Peninsula when the North-South division has been terminated and national unification realised.

We reaffirm our old assertion that the North-South dialogue should embrace only democratic and patriotic forces which act truly for unification, not in word, and, only when it is participated in by a wide range of representatives reflecting the will of people of various strata in the North and South and abroad, can the door of unification be opened.

The movement against dictatorship and for democracy is an important task to be carried out continuously and vigorously on the road of unification.

The movement for democracy of intellectuals, youth and students, former opposition figures and religionists in South Korea is rapidly growing in scope and strength into a struggle of a higher plane.

We warmly support their just, patriotic struggle with compatriotic sentiments.

For the future of the country and the nation, the Chon Tu-hwan military junta must immediately resign as demanded by the people and a democratic coalition government aspiring after independence, democracy and unification be established.

We demand that the United States rectify its policy toward South Korea and stop all its acts rendering military, political and economic support to the present bellicose dictatorial "regime" and opposing the unification of the Korean Peninsula.

The declaration stresses:

We will actively conduct the movement of peace, freedom, democracy and unification against foreign forces and for national chanjusong, availing ourselves of the favourable conditions that we are in foreign countries.

We will inform broad sections of world public of the realities of South Korea which has turned into a most dangerous complex nuclear base in the world and is fraught with the danger of becoming the hotbed of a new global war and will extensively wage a peace movement so that shouts opposing war and nuclear weapons may ring out from the South.

We will strive to thwart the South Korea-U.S.-Japan tripartite "security system" and smash the scheme of Japanese militarism to stage a comeback to our country.

Using every possible means, we abroad will conduct a brisk movement for reunification and exchange between compatriots in the North and South and bring to further maturity a climate and conditions for dialogue for unification.

Scholars Support National Unification

SK191215 Pyongyang KCNA in English 1059 GMT 19 Jul 83

[Text] Pyongyang, 19 Jul (KCNA)—Chang Nyon-sok, professor at the Osaka University of Telecommunication, made a report "Let Us Open the Way to Peaceful Unification Through the Movement for National Independence Against Foreign Forces" at the Sixth Symposium of All Korean Scholars Overseas for National Unification held in Kyoto, Japan, according to a KNS report.

Noting that the cold war has been intensified and the situation on the Korean peninsula rendered extremely tense in accordance with the U.S. global strategy since the emergency of the ultra-rightist regime of Reagan in the United States and the Nakasone cabinet in Japan, the reporter said:

The United States has heightened with each passing day the strategic position of the Korean Peninsula, claiming that Korea is "its main stronghold in North-east Asia" and that "the security of South Korea is vital for its security." At the South Korea-U.S. "Security Council" meeting last April, it went so far as to state that "South Korea is vital for the interests of the United States."

The U.S.-Japan-South Korea tripartite "security system" has rapidly strengthened with the emergency of the Nakasone cabinet in Japan and Nakasone's tour of South Korea and the United States early this year as an occasion.

Recently the United States deployed 133 tactical nuclear weapons, 21 nuclear mines, 63 nuclear warheads for 8-inch howitzers and 31 nuclear warheads for 155-mm howitzers in the area near the military demarcation line and plans to deploy neutron weapons in South Korea.

Noting that it poses a serious problem to avert the danger of war and preserve peace, the reporter went on:

We demand that the armistice agreement be replaced by a peace agreement with the 30th anniversary of the signing of the 27 July armistice agreement as an occasion.

Our anti-war peace movement must be connected with the movement for the independent and peaceful unification of the country.

We are given a task to realize independence, democracy and national unification.

The popular uprising in Kwangju showed that unless we are freed from dependence on the United States it is impossible to attain our goal and that liberation from foreign forces, self-reliance and national independence are the task of history.

Through the Kwangju incident, the students and genuine democratic forces of South Korea clearly realised that the United States is the backstage manipulator and real criminal who plunged Kwangju into a sea of blood and caused a shocking tragedy, too horrible to see, and became aware that unless they win victory in the fight with the backstage manipulator, neither restoration of genuine democracy nor national unification can be achieved.

Through the struggle for democracy in the 60's and 70's full of vicissitudes and trials and the Kwangju tragedy, anti-U.S. sentiments have been widely spread and become universal among students, progressive religionists, intellectuals and all other segments of people.

We have the internal forces to wage the anti-U.S. struggle for national independence and national consciousness capable of accepting the struggle of such a high stage.

We reached the conclusion that a movement against foreign forces and for national independence must be launched in order to preserve peace and achieve unification on the Korean Peninsula under the strained situation with the Sixth Symposium of All Korean Scholars Overseas for National Unification as an occasion, the reporter noted and said:

We must lift up our voices to indict the hegemonist policy of the United States toward South Korea and demand national sovereignty and turn out more vigorously to defend the dignity of the nation.

We regard the U.S. troops' presence in South Korea as aggression and interference in our internal affairs and strongly demand the U.S. Government to withdraw its troops from South Korea.

We demand that all nuclear weapons deployed in South Korea be withdrawn along with the troops.

We should expose to the world the realities of South Korea which has turned into a most dangerous complex nuclear base and serve a warning against the danger of nuclear war in Asia and the world with the Korean Peninsula as the train.

We must keep a watch over the moves of the United States to rearm Japan, link it with the South Korean military "regime" and bring the Japanese armed forces into South Korea, and must check and foil in cooperation with the Japanese democratic forces the scheme to round off the U.S.-Japan-South Korea "security cooperation system."

We must struggle to replace the present military dictatorial "regime" of South Korea by a democratic government through intensified movement against dictatorship.

REPORTAGE ON ARREST, DETENTION OF STUDENTS IN SOUTH

Three Students Arrested

SK160126 Pyongyang KCNA in English 2210 GMT 15 Jul 83

[Text] Pyongyang, 16 Jul (KCNA)--The South Korean fascist clique recently arrested three students including Yon Song-hwan, a third-year student of Sungjon University in Seoul, who had participated in an anti-"government" struggle, according to a report.

The puppets made this arrest after they agitated an anti-"government" demonstration, scattering on the campus more than 500 copies of leaflets against the fascistisation of campus among over 800 fellow students in early June.

The fascist hooligans also decided to detain four students including Choe Kwang-yol of Seoul University on charges of having agitated a demonstration, scattering leaflets.

This is part of the constant repressive acts of the fascists for barring the patriotic action of the students for an independent and democratic society.

Four Students Sentenced

SK172351 Pyongyang KCNA in English 2205 GMT 17 Jul 83

[Text] Pyongyang, 18 Jul (KCNA)--The South Korean military fascist clique at a trial held on 16 July at the puppet Seoul District Criminal Court passed a prison term of two years respectively upon four students of Kyonghui University who had waged an anti-"government" struggle, according to a foreign press report.

These students had called upon their fellow students to turn out to an anti-"government" struggle, scattering leaflets denouncing the crime of the Chon Tu-hwan puppet clique, a gang of out-and-out stooges of U.S. imperialism and fascist murderers.

The fascist clique arrested these students in May on charges of violation of the notorious "Law on Assembly and Demonstration" and persecuted them, finally passing a prison term upon them.

The Chon Tu-hwan puppet clique is holding trials almost every day, penalising patriotic and progressive students in an attempt to prevent the anti-U.S., anti-"government" action of students.

Nine Students Detained

SK180113 Pyongyang KCNA in English 0332 GMT 18 Jul 83

[Text] Pyongyang, 18 Jul (KCNA)—The South Korean puppet clique recently detained 9 students including Ha Kun-chol of Sonogyungwan University in Seoul, according to a report.

The fascist clique is suppressing them on charges of violation of the fascist "Law on Assembly and Demonstration" because these students scattered anti-"government" leaflets on the campus on 25 and 26 May agitating for a demonstration.

DPRK DAILY ASSAILS ARMY 'SUPPRESSION' IN SOUTH

SK151121 Pyongyang KCNA in English 1047 GMT 15 Jul 83

[Text] Pyongyang, 15 Jul (KCNA)—The Chon Tu-hwan Group, far from apologizing for its criminal massacre of Kwangju people committed with the mobilisation of puppet paratroopers three years ago, is driving out huge armed forces of the puppet army in suppressing and slaughtering patriotic people. This is an unpardonable crime.

So says MINJU CHOSON today, commenting on the fact that the Chon Tu-hwan military fascist clique moved two divisions of the puppet army "specially trained for suppression" from the area along the military demarcation line to Kwangju and other southern areas under the name of the "maintenance of public peace."

This is added proof that the Chon Tu-hwan puppet clique is mobilizing even the puppet army for the "security" of its power and for its long-term office, the commentary notes, and says:

The deployment of "specially trained" puppet army units in cities of South Korea is a prior step taken to ruthlessly put down the struggle of people with the mobilisation of not only puppet police but also regular armed forces armed with latest equipment in case a second Kwangju incident breaks out in South Korea.

This shows that the puppets' talk about "national concord" and "democracy" is a sheer lie.

It goes without saying that the movement and deployment of the puppet army is dictated by the U.S. imperialists who seize the prerogative of supreme command of the puppet army.

It is only too clear to everyone that the Chon Tu-hwan group with no power cannot move at will puppet army units, two divisions at that, to other areas from the area along the demarcation line.

That this step was directed by the U.S. imperialists is proved all the more fully by the fact that it was already provided for in the confidential document

of the U.S. Defence Department called the "Reorganisation of the Armed Forces" of the South Korean puppet army.

This tells that the U.S. imperialists are actively instigating the Chon Tu-hwan group to suppress and stamp out the people's anti-U.S. struggle for independence and anti-fascist struggle for democracy which is gaining further momentum in South Korea.

The Chon Tu-hwan clique is trying in vain to execute the colonial policy of U.S. imperialism by mobilizing even the puppet army and thus realise its wild ambition for long-term office.

The further the South Korean puppets intensify the fascist suppression with the mobilization of the suppressive forces, the more powerful resistance of the people it will run up against and the earlier their doomsday will come.

BOYCOTT OF WAR MATERIAL FOR S. KOREA DEMANDED

SK161019 Pyongyang KCNA in English 1005 GMT 16 Jul 83

[Excerpts] Pyongyang, 16 Jul (KCNA)—Crewmen of foreign ships held an indignation meeting at Chongjin Port on 14 July in denunciation of the new war provocation manoeuvres of the U.S. imperialists and South Korean puppet clique on the occasion of the month of anti-U.S. joint struggle.

Present there were the crewmen of the Panamanian ships "White Hakuyo" and "Fortitude Pine," the Indonesian ship "Andhika Wanasatya" and the Japanese ships "Uno-Maru No 3" and "Koho-Maru No 28."

The speakers at the meeting said that the U.S. imperialists are resorting to every conceivable means to unleash a new war, failing to draw a lesson from their miserable defeat in the Korean war, and denounced their scheme to introduce even neutron weapons into South Korea.

An appeal to the sea transport workers of the world was made public there.

Noting that a tense situation in which a war may break out any moment has been created on the Korean Peninsula due to the moves of the U.S. imperialists and their stooges, the appeal said:

On the occasion of the 25 June-27 July month of anti-U.S. joint struggle, the world sea transport workers should lift up louder voices than ever before against the war exercises and arms buildup of the U.S. imperialists and their stooges and in denunciation of the criminal scheme to frame up a triangular military alliance of the United States, Japan and South Korea.

We earnestly appeal to the world sea transport workers who oppose war and want peace to decisively boycott the handling of any weapons and military materials destined for South Korea at any port and anywhere in the United States, Japan and other countries.

KCNA REPORTS 'HISTORIC' SIGNIFICANCE OF PANMUNJOM

SK161055 Pyongyang KCNA in English 1037 GMT 16 Jul 83

[Text] Pyongyang, 16 Jul (KCNA)--Many foreigners visit Panmunjom these days. Inspecting the place situated on the military demarcation line in the demilitarized zone, they bitterly denounce the U.S. imperialist aggressors who are imposing the sufferings of split upon the Korean people by dividing Korea into North and South.

Panmunjom is the historic place where the U.S. imperialists who started a war of aggression in Korea in the 1950's went down to their knees before the heroic Korean people and signed the document of surrender.

There the visitors see the "room of the armistice talks" held from 10 July 1951 to 27 July 1953, and the "hall where the armistice agreement was signed," the house where the U.S. imperialist aggressors signed the text of the armistice agreement under their white flag.

The Korean people and people's army fought courageously in the sacred battles for routing the U.S. imperialist aggressors during the fatherland liberation war under the wise leadership of the great leader Comrade Kim Il-song.

The U.S. imperialist aggressors suffered an irretrievable defeat, military, political and moral, in face of the heroic struggle of the Korean people.

Finding no other way out of the blind alley into which they had been driven, the U.S. imperialists were compelled to sign the armistice agreement at Panmunjom, falling on their knees before the heroic Korean people on 27 July 1953.

Clark, the then U.S. Far East Forces Commander and "UN Forces" Commander, wrote, recalling those days, that what he earned in executing the instructions of the government was the negligible fame of the first U.S. commander to sign an armistice agreement without victory.

Panmunjom still remains a focal point of world attention.

The cursed military demarcation line by which the U.S. imperialists, the aggressor, artificially bisected one territory and one nation runs right through Panmunjom.

You find in Panmunjom the "conference room of the military armistice commission," the room of stern judgment indicating to the whole world the heinous aggressive crimes of the U.S. imperialists in Korea.

The Military Armistice Commission has so far met 419 times at Panmunjom.

At those meetings our side has sharply exposed to the whole world the crimes of the U.S. imperialist aggressors in constantly committing hostile acts against the Democratic People's Republic of Korea in gross violation of the military armistice agreement.

The violation of the armistice agreement by the U.S. imperialists since the signing of the armistice agreement totals more than 34,800 cases, only counting those protested against by our side through Panmunjom.

From January through to 24 June this year, the U.S. imperialist aggression forces and the South Korean puppet army committed above 11,200 cases of espionage and military provocations against our side in the skies, on the ground and sea.

The U.S. imperialists' policies of aggression and war have driven the situation of Korea to the extreme pitch of strain.

The U.S. imperialist aggressors, drawing a proper lesson from their ignominious defeat in the Korean war, should immediately renounce their reckless new war provocation manoeuvres and get out of South Korea without delay, taking along all their destruction weapons including nuclear arms and aggression forces.

DAILY CRITICIZES CHON'S PRO-JAPANESE NATURE

SK180447 Pyongyang KCNA in English 0419 GMT 18 Jul 83

[Text] Pyongyang, 18 Jul (KCNA)--Commenting on the recent disclosure of the "study" of traitor Chon Tu-hwan's son in Japan, NODONG SINMUN Monday says:

By this Chon Tu-hwan gives assurances that he would serve Japanese reactionaries indefinitely as a pro-Japanese flunkist traitor.

The signed commentary titled "True Color of Dual Stooze of U.S. and Japan" says:

As for traitor Chon Tu-hwan, he is a dyed-in-the-wool pro-Japanese stooze who was steeped to the marrow in the Japanese militarist ideal from his childhood.

His father, when the Korean people were undergoing all tribulations under the Japanese imperialists' colonial rule, served the Japanese imperialists as their running dog, currying favor with them and preaching the population to become "Japanese imperial subjects."

Traitor Chon Tu-hwan, a descendant of a vicious pro-Japanese stooze, sang "Go to Beat the Bandits," a war song of the Japanese imperialist aggression army, "Longing for It" from his childhood, and dreamed of joining it in future, he himself confessed to this.

No wonder that traitor Chon Tu-hwan, as soon as he crabbled power with the backing of the U.S. imperialists, rolled up his sleeves to tighten fusion with the Japanese reactionaries, crying that South Korea and Japan are "the same territory" and "share the same destiny."

At the aggressive request of the U.S. imperialists, traitor Chon Tu-hwan is trying to prolong his days by winning the favor of the Japanese reactionaries and begging for greater political, economic and military "aid" of them, and is going to hasten the formation of a U.S.-Japan-South Korea three-way military alliance.

Not contented with leaving South Korea as a colony of the U.S. imperialists, he is showing extra zeal in ushering in Japanese reactionary forces, the

spectres of Japanese imperialism which imposed colonial slavery upon our people for 34 years. He is, indeed, a despicable flunkeyist traitor surpassing the five traitors of Ulsa (1905) and faithful dual stooge of the United States and Japan.

The traitor has so far been quite loud-mouthed about "patriotism" and "enhancement of independent consciousness." But the afore-said fact proves that this was a buffoonery for concealing his treacherous color.

The Chon Tu-hwan traitor clique who are selling off the country and the nation, clinging to the sleeves of the aggressors, challenging the desire of the people, will face the judgment by history.

SEOUL CALLED 'UNFIT' AS IPU MEETING SITE

SK210919 Pyongyang KCNA in English 0810 GMT 21 Jul 83

[Text] Pyongyang, 21 Jul (KCNA)—The Provoo Group for the Study of the Chuche Idea in Finland recently issued a statement in connection with the fact that the 70th Inter-Parliamentary Conference is to be held in Seoul. It says:

We consider that the designation of Seoul as the venue of an Inter-Parliamentary Conference is a wrong step.

The convocation of the Inter-Parliamentary Conference in Seoul will increase the international tensions.

We think that the venue of international function and meeting must be a country which can ease the international tensions to the greatest extent.

Judging from all facts, we regard Seoul as unfit for the venue of the Inter-Parliamentary Conference.

A recent issue of the Swedish paper GNISTAN says:

The convocation of the 70th Inter-Parliamentary Conference in fascist South Korea, a colony of the United States, runs counter to the will of the Korean people.

This contravenes the democratic character of the Inter-Parliamentary Union and means supporting the infiltration of military monopoly capital into South Korea.

The United States staged the largest-scale joint military rehearsal with the South Korean puppet army in a simulated war in Korea.

It was an attack exercise to invade the northern half of Korea and a very dangerous war exercise which made the northern half enter into a semi-war state.

The United States which created this strained situation is scheming to hold the 70th Inter-Parliamentary Conference in South Korea in an attempt to perpetuate the division of Korea and have the South Korean authorities recognized.

KIM CHONG-IL HELPS PRESERVE REVOLUTIONARY TRADITION

SK201050 Pyongyang KCNA in English 1031 GMT 20 Jul 83

[Text] Pyongyang, 20 Jul (KCNA)--Trees on which slogans are inscribed are carefully preserved on Chong Hill, a holy land of revolution, situated at the foot of Mt Paekdu in the northeastern part of Korea. They are a priceless treasure of our revolution.

In May 1939 in the period of the anti-Japanese armed struggle, men of the Korean People's Revolutionary Army advanced into the homeland under the personal command of the great leader Comrade Kim Il-song and, on the day when they camped on Chong Hill, inscribed revolutionary slogans on trees. These trees preserved by automatic permanent preservation equipment bear the letters as clearly as they were, though many years have passed.

Some faded letters were all revived to help people learn from the ardent revolutionary spirit of their inscribers.

"Korean youth, come out quickly and join actively in the anti-Japanese war!"

"Working masses of the whole world, rise and unite and fight for freedom and liberation!"

These slogans were inscribed by Comrade Kim Chong-suk, an indomitable communist revolutionary fighter and heroine of the anti-Japanese war, together with men of the KPRA, to express their ardent love of the motherland and staunch fighting spirit.

These slogans on Chong Hill are still shining though 40 odd years have passed. This is thanks to the lofty intention of the dear leader Comrade Kim Chong-il to defend and carry forward forever the revolutionary traditions established by the great leader Comrade Kim Il-song.

The dear leader who is glorifying the revolutionary traditions established by the great leader during the anti-Japanese revolutionary struggle worked out a far-reaching plan to build Yanggang Province into a grand open-air revolutionary museum and wisely led the work to carry out the plan. He gave energetic guidance to the work of preserving forever the trees inscribed with the slogans on Chong Hill, a precious historical material of revolution.

When he guided again the work of the Chongbong Camp in July 1976, the dear leader said that the basic task of the camp was to well preserve the trees inscribed with the slogans, a precious revolutionary treasure, and took party and state steps to strengthen scientific researches for their permanent preservation and supply in time necessary materials and equipment.

Upholding his noble intention, factories and enterprises produced and supplied in a brief span of time over 1,000 pieces of valuable facilities and materials, and scientists and constructors gave full play to their wisdom, energy and talent in the project for permanent preservation of the slogan-bearing trees. As a result, the valuable revolutionary mementoes can be handed down through generations as they are.

GENERAL MARKS THIRTY-THIRD ANNIVERSARY OF KOREAN CONFLICT

Pyongyang THE PYONGYANG TIMES in English 25 Jun 83 p 3

[Article by Maj Gen O Ki-su marking the 33d anniversary of the Korean Conflict]

[Text] Thirty-three years have passed since the US imperialist aggressors unleashed a war in Korea on June 25, 1950.

On this occasion our people and officers and men of the People's Army cannot restrain their surging hatred and resentment toward the US imperialist aggressors who have brought immeasurable calamities and misfortunes to our people and who are still occupying south Korea. And they are filled with an adamant resolve to drive the enemy from south Korea and achieve the independent reunification of the country without fail.

US imperialism is an inveterate enemy who has long invaded our country. It is also a ringleader of the criminal war of aggression in Korea.

The US imperialists who illegally occupied south Korea after the defeat of Japanese imperialism, pushed ahead with preparations for a war of aggression against the northern half of our Republic, manoeuvring to turn Korea into a bridgehead to invade the Asian continent and a strategic point to oppose socialism.

They had shipped huge armed forces of aggression into south Korea. And the US imperialists and their stooges south Korean puppet clique perpetrated military provocations almost every day against the north along the 38th parallel line, and at last on June 25, 1950 ignited a war of aggression against our people.

The US imperialist aggressors put in the Korean front several million-strong armed forces--mercenaries of 15 vassal states and the south Korean puppet troops including their own army with up-to-date weapons--and large quantities of combat equipment, in an attempt to nip our young Republic in the bud. And they used the most barbarous methods and means of warfare unparalleled in the history of war.

They committed the ferocious atrocities reducing our towns and villages to ashes by the indiscriminate saturation bombing and bombardment and killing the innocent people randomly.

However, they could never bring our people and People's Army to their knees.

the judicious guidance of the respected leader Comrade Kim Il Sung, ever-victorious ironwilled brilliant commander and great strategist, our people and officers and men of the Korean People's Army turned out as one in the war to annihilate the enemy. They displayed unexcelled bravery and mass heroism, thus defeating the US imperialist aggressors and winning a great victory.

This signal victory meant safeguarding the independence of the country and the gains of revolution with honour, brought about the beginning of downhill slide of US imperialism, and gave a strong impetus to the anti-imperialist, anti-US imperialist struggle of the revolutionary people the world over.

The US imperialists should have gone home, drawing a due lesson from their ignominious defeat in the Korean war. But today they are still entrenched in south Korea, infringing upon the sovereignty of our nation and frantically manoeuvring to unleash another war. At the same time they are dead set against the independent reunification of our country, while persistently pursuing a "two Koreas" policy.

The great leader President Kim Il Sung said:

"The occupation of south Korea by the US imperialists and their policy of aggression are the root cause of all our nation's misery, the main obstacle to the reunification of our country and a constant source of war in Korea."

The Workers' Party of Korea and the Government of the Republic have throughout affirmed as their basic principle that the country should be reunified in the interests of the nation, by the Korean people themselves without any interference from outside forces. Proceeding from this principle, they put forth concrete proposals and ways and means reasonable for national reunification and made all sincere efforts to put them into practice. However, each time the US imperialists rejected our proposal. Today in order to realize their vicious aggressive end they are intensifying their policy of colonial subjugation in south Korea and resorting to more undisguised moves to trigger off a war.

Because of their reckless war moves, today the situation in our country is so strained that a new war may break out at any moment.

The US imperialist steadily reinforce their aggression forces and armaments in south Korea.

They have already increased there F-16s and A-10s and also many warships including frigates and guided missile-equipped destroyers.

And they deployed numbers of nuclear weapons there, and of late they have been planning to bring in even neutron bombs. It is known to everyone that they formed the "Rapid Deployment Force" to be moved to the Korean peninsula in case of emergency and put them on the alert.

While turning south Korea into an arsenal for war and concentrating huge aggression forces around the Korean peninsula, the US imperialist are frantically staging dangerous war games.

As reported already, in collaboration with the Chon Du Hwan puppet clique the US imperialists held the "Team Spirit 83" war exercise in south Korea in the period from February 1 to mid-April this year. It was not a simple war game but a projected provocation to lead the situation to the brink of war step by step and a preliminary war to perfect an operational plan on the eve of a Korean war.

Even after this war game the US army, Japanese "Self-Defence Forces" and south Korean puppet troops are ceaselessly staging both in south Korea and Japan war exercises aimed at our Republic.

The US imperialists are hell-bent on the preparations for another Korean war, stepping up a US-Japan-south Korea tripartite military alliance.

They perpetrate espionage acts by intruding their planes into the airspace of the north, and provoke armed conflicts almost every day along the Military Demarcation Line.

Owing to their reckless war moves our country is exposed to a touch-and-go situation.

As long as the US imperialist aggression troops remain in south Korea we can neither settle the question of Korea's reunification independently nor can we think of peace and security in our country, Asia and the world.

The US imperialists have no ground whatsoever to stay in south Korea.

They must get out of south Korea without delay in accordance with the Korean Armistice Agreement (1953) and the resolution of the 30th Session of the UN General Assembly (1975).

The present era is an era of Chajusong (independence). No one is allowed to intervene in the internal affairs of other country and infringe upon the sovereignty of the masses of people.

US imperialists must know that their continued occupation of south Korea and their moves for a new war of aggression are highly anachronistic, sadly outdated.

Ours are a dignified people who hold most dearly the national sovereignty.

Today we have an invincible might of the people and People's Army who are united closely behind the Party and the leader with a single ideology and purpose. We also have a powerful socialist state--independent in politics, self-sufficient in the economy and self-reliant in defence.

The international prestige of our Republic has risen markedly. Support to and sympathy with our revolution are increasingly voiced by the people throughout the world.

The US imperialists must take a sane look at the reality and behave with discretion.

Our People's Army officers and men and people value peace, and they do not want war. But if the enemy dare to invade their holy land they will rise as one in a do-or-die struggle, deal an annihilating blow at the aggressors and defend the socialist motherland.

Should the US imperialists and their henchmen pull the trigger on war in Korea, in disregard of our repeated warnings, they will get nothing but an ignominious defeat and death.

Invincible is the cause of our people and People's Army advancing under the wise guidance of the great leader President Kim Il Sung and the glorious Party, and victory and glory are in store for them.

KCNA ON INCREASE OF DPRK TEXTILE OUTPUT

SK181600 Pyongyang KCNA in English 1525 GMT 18 Jul 83

[Text] Pyongyang, 18 Jul (KCNA)--In Korea textile output jumped 80 percent last year.

In the first half of this year the output of staple fibre-vinalon mixed-spun textiles was 40 percent up on the like period of last year and that of vinalon suit materials showed an increase of one million metres.

Korea met from long ago the home demand for fabrics by herself.

Textile industry was next to nil in the area of today's northern half of the republic before liberation. In those days the per capital textile output was no more than 14 centimetres.

It was not until after liberation that the foundation of the textile industry was built under the wise leadership of the great leader Comrade Kim Il-song.

Textile industry made a rapid development particularly in the postwar period. The destroyed textile mills were rehabilitated in a short period and large-scale modern textile mills and small- and medium-scale knitwear and textile mills were built in all parts of the country.

Textile industrial bases capable of producing 400 million metres of fabrics annually had been built by 1970.

The material and technical foundations of the textile production bases were further consolidated during the last decade, during which the number of the spindles showed an increase of 1.75 times and the number of the knitting machines more than trebled.

The capacity of the existing spinning and weaving equipment has increased further still in recent years.

Entering this year, the Pyongyang Textile Combine and the Sinuiju Textile Mill have increased the number of rotations of spindles by several hundred as against last year.

Many textile mills have attached new apparatuses and devices to the textile machines to suit the use of domestic fibre, making it possible to boost production further still.

Knitwear output has gone up with the modernization of knitting equipment.

Solid chuche-based chemical fibre production bases for the increase of textile production have been laid.

The production capacity of the chemical fibre mills has shown a marked increase. In the six-year plan period (1971-1976), the production capacity of the 8 February Vinalon Complex reached 50,000 tons and that of the Chongjin and Sinuiju Chemical Fibre Mills augmented to tens of thousands of tons.

Industry of new chemical fibres including movilon has been founded in recent years to open a broader road of solving the textile problem by its own efforts.

The Seventh Plenary Meeting of the Sixth Central Committee of the Workers' Party of Korea held some time ago set forth the task to beat ahead of schedule the 1,500 million metre target of textiles, one of the ten long-term objectives of socialist economic construction for the 1980's. The textile production bases are being built up more solidly thanks to the endeavours of the chemical fibre and textile industrial workers for carrying through the decisions of the plenary meeting.

FACTORY COLLEGE SYSTEM MARKS 32D ANNIVERSARY

SK151631 Pyongyang KCNA in English 1513 GMT 15 Jul 83

[Text] Pyongyang, 15 Jul (KCNA)--Today the Korean workers-students are greeting the 32nd anniversary of the founding of the Factory College of university level.

The Factory College of university level, a new-type college where workers study while on the job, was set up on 15 July 1951, in the period of the fatherland liberation war, at the initiative of the great leader Comrade Kim Il-song.

Factory colleges built at large factories and enterprises in all parts of the country under the wise guidance of the great leader have today become reliable bases with well-regulated educational system for training qualified technicians.

The number of factory colleges, only 40 or so in 1970, has now increased to nearly 90 including branch colleges. Four more factory colleges including the Chongjin Shipbuilding Industrial College and the Taegwan Industrial College made their appearance last year.

The factory colleges are playing a big part in accelerating the intellectualisation of the whole of society.

They have trained a large number of competent revolutionary intellectuals of working class origin, who are well equipped both with theory and practice, on the production site. They are now greatly contributing to the chuche-orientation, modernisation and scientification of the national economy. Many labour heroes, assistant doctors and inventors have been produced from among factory college graduates.

A large number of managerial and technical personnel of industrial establishments are factory college graduates and they are creditably managing and running factories and enterprises equipped with modern technique.

At the 4 June Rolling Stock Factory, a leading rolling stock production centre of the country, more than 90 percent of technicians including deputy chief engineers and workshop chiefs are factory college graduates. Over 5,000 technical innovation proposals advanced by them were introduced into production to

save 482,000 mandays of labour and bring economic benefits amounting to 3,897,000 won to the state.

The factory colleges are equipped with excellent educational facilities and conditions. They are provided with better conditions for experiment and practice and thousands of kinds of textbooks and reference books were written for the workers-students.

The workers-students at the Wonsan Industrial College are receiving theoretical lectures and learning modern science and technique, while operating over 620 technical means and experimental equipment of more than 200 kinds including programme lathes and supersonic defect detectors.

The work of the factory colleges has been further strengthened and developed in recent years under the energetic guidance and care of the dear leader Comrade Kim Chong-il.

He gave meticulous guidance for the building of more factory colleges and branch colleges and for the completion of the educational contents to meet the requirements of the developing reality. He also took steps to set up higher specialized schools attached to the factory colleges and set a new course for training factory managerial personnel and sent quantities of modern technical means and equipment for experiment.

The entire colliers of the 5 April pit of the Komdok General Mining Enterprise are studying at the Komdok Industrial College. Besides, there are many "students shops" and "students workteams," all members of which are studying.

All of the 126 colliers of the Kumsan Pit of the Yongyang Mine finished the course of the Yongyang Industrial College and acquired qualifications of engineer.

"On-the-spot study groups" will be organized at all factory colleges from September this year, where the entire members of work shops or workteams of more than one unit will study.

In Korea where the intellectualisation of the whole of society is being vigorously pushed forward, there are the university on TV, farmers' colleges and fishermen's colleges of university level along with factory colleges of university level where people study while on the job.

[Text] Pyongyang, 19 Jul (KCNA)--On the occasion of the month of anti-U.S. joint struggle photo and book exhibitions were held recently in Madagascar and Democratic Yemen and photo exhibitions in Mongolia, Laos, Peru and Uganda. Portraits of the great leader Comrade Kim Il-song were placed in the exhibition halls.

Speeches were made at the opening ceremonies of the exhibitions.

Jorge del Prado, general secretary of the Central Committee of the Peruvian Communist Party, said in his speech: In the war provoked by the U.S. imperialists, Korea was razed to the ground. But she has turned into a socialist state with a developed industry and agriculture after healing the serious war wounds in a short postwar period under the wise guidance of the great leader Comrade Kim Il-song.

Korea owes her victory in the struggle against the U.S. imperialists entirely to the wise leadership of Comrade Kim Il-song, an outstanding military strategist.

As the great leader clarified, Korea must be reunified independently on the principle of great national unity and in a peaceful way after forcing the U.S. imperialists out of South Korea.

Film shows were arranged in various places of Yugoslavia, Rwanda, Uganda, Ethiopia, Peru and Madagascar on the occasion of this month.

A lecture on the subject "Korean Reunification and the Proposal for Founding the Democratic Confederal Republic of Koryo" was given in Rubingo Commune, Rwanda.

A round table conversation on friendship and solidarity with the Korean people took place at Roberto Fernandez Cooperative Farm in Cardenas, Matanzas Province, Cuba.

KIM IL-SONG GREET'S NICARAGUAN LEADER

SK181627 Pyongyang KCNA in English 1540 GMT 18 Jul 83

[Text] Pyongyang, 18 Jul (KCNA)--The great leader Comrade Kim Il-song, president of the Democratic People's Republic of Korea, sent a message of greetings today to Comrade Daniel Ortega Saavedra, coordinator of the Council of the Government of National Reconstruction of the Republic of Nicaragua, on the occasion of the fourth anniversary of the victory of the Nicaraguan revolution.

The message reads:

On the occasion of the fourth anniversary of the victory of the Nicaraguan revolution, I extend warm congratulations to you and, through you, to the Council of the Government of National Reconstruction of the Republic of Nicaragua and the Nicaraguan people on behalf of the Government of the Democratic People's Republic of Korea, the Korean people and on my own.

Since the victory of the revolution the Nicaraguan people under the correct leadership of the Sandinist National Liberation Front and the Government of National Reconstruction have vigorously struggled to defend the gains of the revolution and build a new life.

In an effort to block the victorious advance of the Sandinist revolution, the U.S. imperialists are becoming ever more undisguised in their manoeuvres for military intervention in Nicaragua while encouraging the Somoza remnants and the fascist regimes around Nicaragua to ceaseless armed invasions.

The Korean people sternly denounce the U.S. imperialists' manoeuvres of aggression against the Nicaraguan people and extend firm militant solidarity with the Nicaraguan people in their just struggle for defending the sovereignty and territorial integrity of the country.

I believe that the Nicaraguan people will surely win victory in the struggle to smash all the counter-revolutionary moves of the enemy and build independent Nicaragua, firmly rallied around the Sandinist National Liberation Front.

The friendly and cooperative relations between our two countries have entered a new stage of development since your visit to our country in March last.

These relations will further consolidate and develop as the days pass by in the common struggle against imperialism and for independence.

Availing myself of this opportunity, I wholeheartedly wish you and your people greater success in the future work for the building of a new society and national defence.

INTERNATIONAL PRESS HEAD PRAISES KIM IL-SONG

SK181035 Pyongyang KCNA in English 1010 GMT 18 Jul 83

[Text] Pyongyang, 18 Jul (KCNA)--Pero Ivacic, president of the International Press Centre in Yugoslavia, recently published an article titled "President Kim Il-song's Consideration for Pool."

He said in the article:

The seventh meeting of the Coordinating Committee of the Non-aligned News Agencies Pool held in Pyongyang in May 1982 will be recorded to remain long in the annals of the development and activities of Pool.

Fifty-nine delegations and delegates participated in the Pyongyang meeting, though 25 news agencies are embraced in the Coordinating Committee. The meeting was the largest one in scale among the Coordinating Committee meetings.

The meeting reached a consensus of views and expressed the common resolve to develop pool on the principle of the non-aligned movement. This is the biggest success of the meeting.

The consistent attention and care of President Kim Il-song and the activities of Korean comrades, the host, made a big contribution to successful proceeding of the Pyongyang meeting.

Noting that he was received by President Kim Il-song when he visited Pyongyang in March 1982 for preparations of the meeting as chairman of the Pool Coordinating Committee, he said:

This was the greatest honor for me.

I felt myself strained as I was going to make a report on Pool to President Kim Il-song.

But, his generous personality immediately relaxed my strain.

He warmly treated me, referred to the importance of the meeting scheduled in Pyongyang and even said he was sorry he had not received me in 1978.

I was surprised at the fact that President Kim Il-song was so well aware of Pool and the organisation and purpose of the scheduled meeting.

Stressing that it was very important to invite as many delegations as possible to the meeting, he said the meeting should strive for unity and cohesion of the non-aligned movement. Expressing his full support to it, he said as the non-aligned countries unanimously support it, the point at issue was to successfully hold the meeting so as to contribute to cooperation among all non-aligned countries.

I am convinced that the Pool meeting held in Pyongyang is an example of all other meetings.

The Pyongyang meeting in May 1982 thus achieved a particularly big success.

At that time, I was received by President Kim Il-song for the second time.

I reported to him that the seventh meeting of the Pool Coordinating Committee was held with success.

The president expressed deep satisfaction with the fact that the meeting demonstrated complete unity and concluded its work with success.

I informed him of the whole course of the meeting and expressed thanks to him for his attention and great help.

An important speech made by President Kim Il-song at a grand banquet he arranged in honor of the entire attendants of the meeting was adopted as a document of the meeting.

President Kim Il-song said in his speech:

"The role of the news service is really great in the struggle for the building of a new society.

"News services are the ears and eyes of society and spokesmen of the public opinion."

And he said:

"All non-aligned countries should join efforts to enhance the Pool's role and thus steadily expand and develop the non-aligned movement, brushing aside every obstacle and obstructionist move."

This is the most important teaching among many teachings he gave for Pool and an appraisal of the importance and role of information we are engaged in.

ASIAN CHUCHE GROUP HEADS PRAISE KIM CHONG-IL

SK151103 Pyongyang KCNA in English 1039 GMT 15 Jul 83

[Text] Pyongyang, 15 Jul (KCNA)--T. B. Mukherjee, president of the Asian Regional Institute of the Chuche Idea, recently issued a talk after studying "Let Us Advance Under the Banner of Marxism-Leninism and the Chuche Idea," a treatise of Comrade Kim Chong-il, member of the Presidium of the Political Bureau, and secretary of the Central Committee of the Workers' Party of Korea.

In the talk he said:

The dear leader his excellency Kim Chong-il in the treatise reviewed the revolutionary activities and feats of Marx and touched upon the role played by Marxism in the accomplishment of the revolutionary cause of the working class.

Noting that the new historic era demands a new theory and a new idea in which Marxism is creatively applied, he stressed that the great leader President Kim Il-song founded the immortal chuche idea by creatively applying Marxism-Leninism to the reality of Korea in the course of hewing the path of revolution.

The great leader, basing himself on the chuche idea, gave scientific answers to all problems arising in the revolution and construction and comprehensively systematized the idea, theory and method of chuche.

The dear leader his excellency Kim Chong-il in the treatise gave clear answers to all problems arising in the building of a new society--the problems of establishing a correct leadership system in socialist construction, of establishing the party's monolithic ideological system in the building of a working class party, of enhancing the party's leading role and the role of people's government and state and economic bodies in socialist economic construction, of the role of the working people's organisations and of the work method and style of work of the guiding personnel.

Referring to the non-aligned movement, he in the treatise stressed that this movement is a progressive movement of our era opposed to all forms of domination and subjugation and aspiring for chajusong (independence) and that in order to strengthen and develop this movement all non-aligned countries should

strictly observe its fundamental principles, materialize political unity and economic cooperation and jointly fight against the imperialist aggression and interference in their internal affairs.

The treatise of the dear leader his excellency Kim Chong-il is, indeed, an encyclopedic work brightly indicating the questions of principle and ways which not only the Korean people but also the world progressive people should be guided by in socialist construction.

FRENCH PROFESSOR LECTURES ON CHUCHE IDEA

SK191221 Pyongyang KCNA in English 1039 GMT 19 Jul 83

[Text] Pyongyang, 19 Jul (KCNA)--A lecture on the chuche idea was given recently in Paris.

Placed on the platform of the lecture hall were a portrait of the great leader Comrade Kim Il-song and a portrait of the dear leader Comrade Kim Chong-il.

Present at the lecture were university professors in Paris, members of the France-Korea Friendship Association and many public figures.

The dean of the Philosophical Department of Paris University No 10 gave a lecture on the chuche idea.

Pointing out that he would explain the chuche idea on the basis of President Kim Il-song's works and Comrade Kim Chong-il's treatises, the lecturer said:

The chuche idea was founded at a new stage of historical development. It is a theory of the world revolution in the present era. It was founded on the basis of a concrete analysis of the actual conditions of Korea.

The chuche idea demands, first of all, a creative application of Marxism, rejects a dogmatic application of established theories and resolutely opposes all hues of flunkeyism. It demands self-reliance in view of the specific conditions of the country.

His excellency President Kim Il-song clarified the principles of the chuche idea and laid down the chuche-oriented line of the Korean revolution at the Kalun meeting in 1930.

The chuche idea is based on the philosophical principle that man is the master of everything and decides everything.

The DPRK is pursuing an independent policy which is based on national sovereignty.

Korea is enforcing a policy of maintaining the basic line of economic construction--giving priority to heavy industry and simultaneously developing

light industry and agriculture--and the line of self-reliance in national defence.

In her external policy, Korea is striving to develop and strengthen the international working-class movement and communist movement and develop friendly relations among the developing countries.

The successes and experience of Korea constitute an example for other countries.

TANZANIAN JOURNALIST HAILS KIM CHONG-IL

Mika Article Praises Kim Chong-il

SK160841 Pyongyang KCNA in English 0824 GMT 16 Jul 83

[Text] Pyongyang, 16 Jul (KCNA)--Khalid J. Mika, a journalist of the Tanzanian Broadcasting Station, recently issued an article praising the greatness of the dear leader Comrade Kim Chong-il.

Saying that the dear leader Comrade Kim Chong-il is an outstanding thinker and theoretician, genius of leadership and peerless great man personifying all the resources and wisdom of the Korean people and the world people, the author says:

Dear Comrade Kim Chong-il is an outstanding thinker and theoretician with perfect grasps on the revolutionary idea of respected Marshal Kim Il-song and an able person who wisely leads all the party and state affairs in conformity with the idea and intention of the marshal.

From his childhood he read the immortal classical works of Marshal Kim Il-song to learn from his great idea and matured a far-reaching plan for accomplishing his revolutionary cause, the chuche cause, in a shorter period. Thus the revolutionary cause of chuche started by Marshal Kim Il-song is now being brilliantly carried forward by the dear leader Comrade Kim Chong-il to accomplishment.

The dear leader Comrade Kim Chong-il's fidelity to the revolutionary cause of chuche is his quality cultivated from his childhood. It was taken over from Marshal Kim Il-song, the great revolutionary and peerless great man of Korea, and from mother Kim Chong-sok.

Marshal Kim Il-song, the tender-hearted father of the Korean people, is an ever-victorious iron-willed brilliant commander who defeated two imperialisms in one generation, an outstanding genius of revolution and construction who is leading the revolution and construction in the era of chajusong (independence) along the road of brilliant victory and the great sun who is indicating the road of the world revolution, Comrade Kim Chong-sok, the mother of Korea, is an indomitable communist revolutionary fighter and a heroine of the anti-Japanese armed struggle.

Growing under the influence of such great persons Comrade Kim Chong-il established his revolutionary world outlook of *chuche* from his childhood.

Today he is wisely leading the revolutionary cause of *chuche* started by Marshal Kim Il-song while brilliantly carrying forward his ideological and theoretical feats and developing and enriching them.

Comrade Kim Chong-il, with personal grasps on the work of all domains of the revolution and construction, powerfully calls the working people to a new revolutionary upsurge, giving on-the-spot guidance to factories, rural and fishing villages, to all parts of the country, day and night, forgetting sleep and rest.

He initiated the three-revolution-red-flag movement by developing in depth the *chollima* movement, the general line of socialist construction, thus raising a storm of the three revolutions, ideological, technical and cultural, all over the country, recently, he kindled the flames of the movement for the creation of "the speed of the 80's" throughout the country to effect again a new upsurge and miracle in the building of socialism and communism.

He skillfully solves all problems arising in the revolution and construction by organizing the popular masses, the masters of the revolution and construction with great ability.

This is a main feature of the leadership of Comrade Kim Chong-il, who wholly inherited the *chuche*-based art of leadership and method of mass leadership of the great leader Comrade Kim Il-song.

Comrade Kim Chong-il built grand monumental edifices one after another in different parts of the country in recent years, energetically guiding the construction work.

The dear leader Comrade Kim Chong-il is, indeed, a tender-hearted father and a great teacher of the Korean people, and a great leader of the world revolution.

Further Reportage

SK180317 Pyongyang KCNA in English 0800 GMT 18 Jul 83

[Text] Pyongyang, 18 Jul (KCNA)—Khalid J. Mika, journalist of the Tanzanian Radio Station, recently published an article titled "The Respected Leader Marshal Kim Il-song Is Great Sun Illuminating the Road of Revolution."

He said:

The epochal changes and miracles in Korea are a brilliant fruition of the *chuche* idea founded by the great leader Comrade Kim Il-song, and all victories and successes of Korea have been made possible thanks to the outstanding and brilliant leadership of respected Marshal Kim Il-song, the leader of the

revolution. Today they are being brought to fuller bloom by Comrade Kim Chong-il, the sagacious leader, who is brilliantly carrying forward the revolutionary cause of *chuche* pioneered by the respected leader Comrade Kim Il-song.

The respected leader Marshal Kim Il-song formed in 1926 the down-with-imperialism union whose aim was to achieve the liberation and independence of Korea by defeating Japanese imperialism and, further, build socialism and communism in Korea.

He founded the anti-Japanese guerrilla army on 25 April 1932 and led the anti-Japanese armed struggle to victory and achieved the liberation and independence of Korea in 1945.

He won brilliant victory by defeating with the ideological and moral superiority the numerical and technical superiority of the U.S. imperialists who started the war of aggression in Korea.

The world historic contributions and exploits of the respected leader Comrade Kim Il-song, who defeated two imperialisms, U.S. and Japanese, in one generation make the world people cherish boundless reverence for him.

Respected Comrade Kim Il-song is indeed the great leader of the revolution, true leader of struggle and peerless hero.

The immortal *chuche* idea founded by him gives a most perfect ideological, theoretical and practical answer to the problem of building a communist society, the ideal of mankind.

The peoples of the non-aligned countries and new-emerging countries who are vigorously struggling for the cause of anti-imperialism and independence and socialism, taking the *chuche* idea founded by respected Marshal Kim Il-song as the guideline and the peoples of all countries opposing imperialist aggression and aspiring after the building of a new society highly praise and boundlessly revere him as the genius of ideology, theory and practice.

Marshal Kim Il-song is a tender-hearted father of the people who has been devoting his all to the happiness of the people.

He wisely guides the revolution and construction to provide the people with a happier and more civilized life and always thinks of the compatriots in the south.

Marshal Kim Il-song, who takes to heart more than anyone else the misfortunes and sufferings of the people who cannot exchange even letters, not to speak of meeting their kith and kin due to the division of the country and the nation, advanced a most fair proposal for founding the Democratic Confederal Republic of Koryo at the Sixth Congress of the Workers' Party of Korea.

I firmly believe that Korea will be reunited on all accounts in accordance with the policy for national reunification put forward by Marshal Kim Il-song

and the day will surely come when the entire Korean people in the north and the south will lead a happy life forever in a unified land under his guidance.

While victoriously leading the revolution and construction in Korea, Marshal Kim Il-song indicates the road for the unity and cohesion of the socialist countries and the victory of the cause of anti-imperialism and independence for the peoples of the nonaligned and new-emerging countries, and renders unstinted support to their struggle.

For his imperishable exploits for the Korean revolution and the world revolution, the respected leader Marshal Kim Il-song enjoys high international authority and prestige and undisputed trust and respect of the world people.

[Text] Pyongyang, 16 Jul (KCNA)--Talks were held in Pyongyang on 15 Jul between government delegations of the Democratic People's Republic of Korea and the People's Republic of Bangladesh.

Present at the talks on our side were Vice-Premier Chong Chun-ki, Lieutenant General of the Korean People's Army Pak Chung-kuk, Vice-Minister of Foreign Affairs Chon In-chol, Vice-Minister of Foreign Trade Yi Song-ok and other personages concerned.

Present on the opposite side were the members of the delegation headed by M. Ali Khan, deputy chief martial law administrator, and C. M. Murshed, Bangladesh ambassador to our country.

At the talks the two sides reached a consensus of views on expanding and developing mutual exchange and cooperation between the two countries in many fields of politics, economy and culture. Particular stress was put on developing trade and strengthening cooperation in the agricultural domain.

The two sides exchanged views on international issues and confirmed their same view of the need to actively strive for preserving world peace and security and improving the people's welfare.

In this connection the two sides stressed opposition to all forms of armed conflicts and interference and occupation by outside forces.

The Bangladesh side said that Bangladesh, as a non-aligned country and as an Asian nation, fully supports the reunification of Korea in a peaceful way without outside interference on the basis of the resolutions on the Korean question adopted at summit conferences of non-aligned countries. In other words, on the basis of the 4 July 1972 North-South joint statement.

Considering it very important to preserve peace on the Korean Peninsula, the two sides shared the view that if armed conflicts occur on the Korean Peninsula they would be a grave threat to world peace.

Both sides stressed the urgency of the need for the third world countries, on the principle of individual and collective self-reliance, to wage a common struggle against the unfair old international economic order and strengthen South-South cooperation to establish a new one.

The Bangladesh side welcomed the initiative of the great leader His Excellency President Kim Il-song for the developing countries to jointly strengthen economic and technical cooperation and bring to maturity step by step conditions for the convocation of a South-South summit conference.

Pointing to the necessity to strengthen the unity of the third world countries politically and economically, both sides stressed that this is possible only when they hold fast to the principle and goal of the non-aligned movement.

The Bangladesh side highly estimated the strengthened cooperation of the Democratic People's Republic of Korea with the non-aligned countries, especially cooperation in agriculture.

It stressed that the DPRK owes its enormous achievements to the wise leadership of the respected leader His Excellency President Kim Il-song, who leads

the great people and his noble patriotism and devoted service to the cause of the people.

The Korean side expressed solidarity with the Bangladesh people in their vigorous struggle for the independent development of the country and the building of a new society under the leadership of His Excellency President Hussain Mohammad Ershad, their outstanding leader, and declared that in the future, too, it would make every effort to expand and develop the friendly and cooperative relations between the two peoples.

The talks proceeded all along in an atmosphere of friendship and solidarity.

DAILY CONDEMNS S. AFRICA'S MOVES ON LESOTHO

SK160821 Pyongyang KCNA in English 0802 GMT 16 Jul 83

[Text] Pyongyang, 16 Jul (KCNA)--The South African racists' threat and blackmail can never intimidate the Lesotho people. The Korean people extend full support and firm militant solidarity to the Lesotho people in their valiant struggle to defend their independence and sovereignty.

NODON SINMUN today stresses this, commenting on the fact that the South African racists threatened they would attack Lesotho on the preposterous ground that the establishment of relations between Lesotho and socialist countries would cause instability in Southern Africa.

The author of the commentary says:

The South African racists' threat and blackmail against Lesotho is a wanton violation of the independence of a sovereign country and a brigandish act to bring under control other peoples and dominate them by force.

For Lesotho to develop relations with socialist countries is an independent step she has adopted in accordance with her own decision, reflecting the interests and desires of her people.

To put pressure upon it is a flagrant interference in her internal affairs and a vicious challenge to the Lesotho and all other African people and the world's peaceloving people.

The unwarrantable pressure upon and threat to Lesotho [word indistinct] shows it once again that the South African racists are an interventionist and aggressor hindering the building of a new society and independent development of the African countries and a heinous enemy disturbing peace in this region.

The Korean people join the world's peaceloving people in bitterly denouncing the South African racists threat and blackmail against Lesotho and strongly demanding an immediate end of it.

The Lesotho people are courageously advancing along the road of independence against imperialism and actively supporting the Southern African people's struggle for freedom and independence, though their country is encircled by

the South African territory. This irritates the racists. Especially, the resolute step taken by the Lesotho Government last June to sever diplomatic relations with the South Korean puppets, a group of faithful colonial puppets of the U.S. imperialists and fascist murderers, and expel them, dealt a heavy blow at the U.S. imperialists and their stooges, the Chon Tu-hwan clique and the South African racists.

Feeling uneasy about the anti-imperialist independent steps of Lesotho, the South African racists at the instigation of the U.S. imperialists and the South Korean puppets are running wilder to stifle this country.

The South African racists' threat and blackmail only adds fuel to the hatred of the Lesotho people for the enemy and their fighting determination. No one on earth will check the advance of the Lesotho people.

DPRK DAILIES ON NICARAGUAN REVOLUTION

SK191543 Pyongyang KCNA in English 1507 GMT 19 Jul 83

[Text] Pyongyang, 19 Jul (KCNA)--NODONG SINMUN, MINJU CHOSON and PYONGYANG SINMUN today dedicate articles to the fourth anniversary of the victory of the Nicaraguan revolution.

Noting that the victory of the Nicaraguan revolution was a historical event that put an end to the dictatorial regime which had subjected the Nicaraguan people to exploitation and suppression for a long period, a signed article of NODONG SINMUN says:

The past four years following the victory of the revolution have been days of worthy struggle and creation when the Nicaraguan people have defended the revolutionary gains won by them at the cost of blood and accelerated the building of a new society.

The U.S. imperialists who hate the victorious advance of the Nicaraguan people and the Somoza remnants who have been armed and trained by them have resorted to all manner of dastardly acts to stamp out the Nicaraguan revolution.

But the enemies' moves are shattered at every step by the united strength of the Nicaraguan people.

Today the Nicaraguan people are striving to accelerate economic reconstruction and defence building and achieve greater social changes, while consolidating the revolutionary power still further under the correct leadership of the Sandinist National Liberation Front and the Government of National Reconstruction. Pursuing a non-aligned foreign policy, the Nicaraguan Government of National Reconstruction supports the just struggle of the peoples against imperialism and colonialism and for liberation and independence.

Our people rejoice as over their own over all the successes made by the Nicaraguan people and extend firm solidarity with their just struggle.

The Korean and Nicaraguan peoples support and cooperate with each other, having formed tight bonds of friendship on the same front against the U.S. imperialists, the common enemy.

In particular, the visit of Daniel Ortega Saavedra, member of the National Leadership of the Sandinist National Liberation Front and coordinator of the Council of the Government of National Reconstruction of Nicaragua, to our country last March was a signal event that strengthened Korea-Nicaragua friendship and developed it to a new, higher stage.

Warmly hailing the fourth anniversary of the victory of the Nicaraguan revolution, the Korean people wish the Nicaraguan people greater success in their struggle for building an independent and prosperous new Nicaragua.
